HISTORY

In September of 2021, the State of California enacted Assembly Bill 481, codified as California Government Code sections 7070 through 7075, with the stated goals of providing legally enforceable safeguards to protect the public's welfare, safety, civil rights, and civil liberties before military equipment is funded, acquired, or used.

California Government Code section 7071 required every law enforcement agency to do the following by May 1, 2022:

- Create a military equipment use policy including an itemized military equipment inventory.
- Obtain approval of that policy by the applicable governing body at a regular public meeting.
- Publish that policy 30 days prior to the above required approval hearing.

The Rialto Police Department fulfilled the above requirements in April of 2022 by creating Policy 706 - Military Equipment, obtaining approval from City Council, and providing and posting the adopted policy on the Rialto PD website.

ANNUAL REPORTING REQUIREMENTS

Per Government Code 7072(a), the Annual Report shall, at a minimum, include the following information for the immediately preceding calendar year for each type of military equipment:

- (1) A summary of how the military equipment was used and the purpose of its use.
- (2) A summary of any complaints or concerns received concerning the military equipment.
- (3) The results of any internal audits, any information about violations of the military equipment use policy, and any actions taken in response.
- (4) The total annual cost for each type of military equipment, including acquisition, personnel, training, transportation, maintenance, storage, upgrade, and other ongoing costs, and from what source funds will be provided for the military equipment in the calendar year following submission of the Annual Military Equipment Report.
- (5) The quantity possessed for each type of military equipment.
- (6) If the law enforcement agency intends to acquire additional military equipment in the next year, the quantity sought for each type of military equipment.

SUMMARY OF MILITARY EQUIPMENT

The inventory of military equipment, particularly consumable material (ammunition, diversionary devices, Extended Range Impact Weapon - munitions, etc.) fluctuates regularly. This is based on a variety of factors including but not limited to operational usage, deterioration, training, maintenance, and expiration and replenishment guidelines. The Rialto Police Department is committed to transparency in disclosing its military equipment inventory and related information to our community and elected officials in compliance with the law. The Department strives to provide the most accurate military equipment inventory and information to our community.

Per the Government Code section 7070 and RPD Policy 706, the following RPD assets are defined as military equipment:

- Unmanned, remotely piloted, powered aerial or ground vehicles.
- Armored personnel carriers.
- Command and control vehicles that are either built or modified to facilitate the operational control and direction of public safety units.
- Specialized firearms and ammunition of less than .50 caliber, including assault weapons as defined in Penal Codes § 30510 and § 30515, with the exception of standard-issue service weapons and ammunition of less than .50 caliber.
- "Flashbang" grenades and explosive breaching tools.
- Munitions containing tear gas or oleoresin capsicum, and pepperballs, excluding standard-issue handheld pepper spray.
- 40mm projectile launchers, "bean bag," and specialty impact munition (SIM) weapons.
- Any other equipment as determined by a governing body or a state agency to require additional oversight.

SUMMARY OF COMPLAINTS REGARDING MILITARY EQUIPMENT USAGE

There were no complaints regarding military equipment usage in 2023.

SUMMARY AND RESPONSES TO MILITARY EQUIPMENT POLICY VIOLATIONS

There were no policy violations regarding military equipment usage in 2023.

RPD POLICY 706 – MILITARY EQUIPMENT

706.1 PURPOSE AND SCOPE

The purpose of this policy is to provide guidelines for the approval, acquisition, and reporting requirements of military equipment (Government Code § 7070; Government Code § 7071; Government Code § 7072).

706.1.1 DEFINITIONS

Definitions related to this policy include (Government Code § 7070):

Governing body - The elected or appointed body that oversees the Department.

Military equipment - Includes but is not limited to the following:

- Unmanned, remotely piloted, powered aerial or ground vehicles.
- Mine-resistant ambush-protected (MRAP) vehicles or armored personnel carriers.
- High mobility multipurpose wheeled vehicles (HMMWV), two-and-one-half-ton trucks, five-ton trucks, or wheeled vehicles that have a breaching or entry apparatus attached.
- Tracked armored vehicles that provide ballistic protection to their occupants.
- Command and control vehicles that are either built or modified to facilitate the operational control and direction of public safety units.
- Weaponized aircraft, vessels, or vehicles of any kind.
- Battering rams, slugs, and breaching apparatuses that are explosive in nature. This does not include a handheld, one-person ram.
- Firearms and ammunition of .50 caliber or greater, excluding standard-issue shotguns and standard-issue shotgun ammunition.
- Specialized firearms and ammunition of less than .50 caliber, including firearms and accessories identified as assault weapons in Penal Code § 30510 and Penal Code § 30515, with the exception of standard-issue firearms.
- Any firearm or firearm accessory that is designed to launch explosive projectiles.
- Noise-flash diversionary devices and explosive breaching tools.
- Munitions containing tear gas or OC, excluding standard, service-issued handheld pepper spray.
- TASER® Shockwave, microwave weapons, water cannons, and long-range acoustic devices (LRADs).
- Kinetic energy weapons and munitions.
- Any other equipment as determined by a governing body or a state agency to require additional oversight.

706.2 POLICY

It is the policy of the Rialto Police Department that members of this department comply with the provisions of Government Code § 7071 with respect to the funding, acquisition and use of military equipment.

706.3 MILITARY EQUIPMENT COORDINATOR

The Chief of Police should designate a member of this department to act as the military equipment coordinator. The responsibilities of the military equipment coordinator include but are not limited to:

- a. Acting as liaison to the governing body for matters related to the requirements of this policy.
- b. Identifying department equipment that qualifies as military equipment in the current possession of the Department, or the equipment the Department intends to acquire that requires approval by the governing body.
- c. Conducting an inventory of all military equipment at least annually.
- d. Collaborating with any allied agency that may use military equipment within the jurisdiction of Rialto Police Department (Government Code § 7071).
- e. Preparing for, scheduling, and coordinating the annual community engagement meeting to include:
 1. Publicizing the details of the meeting.
 2. Preparing for public questions regarding the department's funding, acquisition, and use of equipment.
- f. Preparing the annual military equipment report for submission to the Chief of Police and ensuring that the report is made available on the department website (Government Code § 7072).
- g. Establishing the procedure for a person to register a complaint or concern, or how that person may submit a question about the use of a type of military equipment, and how the Department will respond in a timely manner.

706.4 MILITARY EQUIPMENT INVENTORY

The following constitutes a list of qualifying equipment for the Department:

[Rialto Police Department 2023 Military Equipment Report.pdf](#)

706.5 APPROVAL

The Chief of Police or the authorized designee shall obtain approval from the governing body by way of an ordinance adopting the military equipment policy. As part of the approval process, the Chief of Police or the authorized designee shall ensure the proposed military equipment policy is submitted to the governing body and is available on the department website at least 30 days prior to any public hearing concerning the military equipment at issue (Government Code § 7071). The military equipment policy must be approved by the governing body prior to engaging in any of the following (Government Code § 7071):

- a. Requesting military equipment made available pursuant to 10 USC § 2576a.
- b. Seeking funds for military equipment, including but not limited to applying for a grant, soliciting or accepting private, local, state, or federal funds, in-kind donations, or other donations or transfers.
- c. Acquiring military equipment either permanently or temporarily, including by borrowing or leasing.
- d. Collaborating with another law enforcement agency in the deployment or other use of military equipment within the jurisdiction of this department.
- e. Using any new or existing military equipment for a purpose, in a manner, or by a person not previously approved by the governing body.

- f. Soliciting or responding to a proposal for, or entering into an agreement with, any other person or entity to seek funds for, apply to receive, acquire, use, or collaborate in the use of military equipment.
- g. Acquiring military equipment through any means not provided above.

706.6 COORDINATION WITH OTHER JURISDICTIONS

Military equipment used by any member of this jurisdiction shall be approved for use and in accordance with this policy. Military equipment used by other jurisdictions providing mutual aid to this jurisdiction, or otherwise engaged in law enforcement operations in this jurisdiction, shall comply with their respective military equipment use policies in rendering mutual aid.

706.7 ANNUAL REPORT

Upon approval of a military equipment policy, the Chief of Police or the authorized designee should submit a military equipment report to the governing body for each type of military equipment approved within one year of approval, and annually thereafter for as long as the military equipment is available for use (Government Code § 7072).

The Chief of Police or the authorized designee should also make each annual military equipment report publicly available on the department website for as long as the military equipment is available for use. The report shall include all information required by Government Code § 7072 for the preceding calendar year for each type of military equipment in department inventory.

706.8 COMMUNITY ENGAGEMENT

Within 30 days of submitting and publicly releasing the annual report, the Department shall hold at least one well-publicized and conveniently located community engagement meeting, at which the Department should discuss the report and respond to public questions regarding the funding, acquisition, or use of military equipment.

RIALTO POLICE DEPARTMENT MILITARY EQUIPMENT INVENTORY

CATEGORY 1- Unmanned, remotely piloted, powered aerial or ground vehicles

UNMANNED AIRCRAFT SYSTEM (UAS/Drone): An unmanned remote-controlled aircraft utilized to enhance the safety of the community and officers.

Description, quantity, capabilities, and purchase cost:

DJI Mavic 2 PRO, Quantity: 1, Cost: \$1,500

Auto Robotics EVO 11 PRO, Quantity: 2, Cost: \$3,750

Purpose: To be deployed when its view would assist officers or incident commanders with the following situations, which include but are not limited to:

- Major collision investigations.
- Search for missing persons.
- Natural disaster management.
- Crime scene photography.
- SWAT, tactical or other public safety and life preservation missions.
- In response to specific requests from local, state or federal fire authorities for fire response and/or prevention.

Authorized Use: Only assigned operators who have completed the required training shall be permitted to operate the DJI Mavic Mini during approved missions.

Expected Life Span: 10 years.

Fiscal Impact: One-time purchase.

Training: Each operator must attend a 40-hour department training and ongoing quarterly training.

Legal and Procedural Rules: The Rialto Police Department will utilize drones only for official law enforcement purposes and in a manner that respects the privacy of our community, pursuant to State and Federal law.

UNMANNED ROBOT: Unmanned remote-controlled machine operating on the ground utilized to enhance the safety of the community and officers.

Description, quantity, capabilities, and purchase cost:

ICOR MK3, Quantity: 1, Cost: \$27,000.

Purpose: To be used to remotely gain visual/audio data, deliver HNT phone, open doors, disrupt packages, and clear buildings and make announcements.

Authorized Use: Only assigned operators who have completed the required training shall be permitted to operate the robots and at the discretion of the Incident or SWAT Commander.

Expected Life Span: 10-15 years.

Fiscal Impact: Robots are all a one-time purchase.

Training: All robot operators are assigned to SWAT and receive ongoing training 20 hours a month.

Legal and Procedural Rules: It is the policy of the Rialto Police Department to utilize a robot only for official law enforcement purposes, and in a manner that respects the privacy of our community, pursuant to State and Federal law.

CATEGORY 2- Armored personnel carriers

ARMORED RESCUE VEHICLE (ARV): Commercially produced wheeled armored personnel vehicle utilized for the safe transport of law enforcement personnel.

Description, quantity, capabilities, and purchase cost: Lenco BEARCAT, G2- The Lenco Bearcat, G2, is an armored vehicle that seats 10-12 personnel with an open floor plan that allows for rescue of down personnel. It can stop various projectiles, which provides greater safety to citizens and officers beyond the protection level of shield and personal body armor.

Quantity: 1, Cost: \$315,000.00

Purpose: To be used in response to critical incidents to enhance officer and community safety, improve scene containment and stabilization, and assist in resolving critical incidents.

Authorized Use: The use of armored vehicles shall only be authorized by a supervisor, based on the specific circumstances of a given critical incident.

Lifespan: 25 years.

Fiscal Impact: One-time purchase with general maintenance fees.

Training: All sworn personnel are trained on an annual basis in the tactics and capabilities of the armored vehicles.

Legal and Procedural Rules: It is the policy of the Rialto Police Department to utilize armored vehicles only for official law enforcement purposes, and pursuant to State and Federal law.

CATEGORY 5- Command and control vehicle

MOBILE COMMAND VEHICLE (MCV): A vehicle used during critical incidents as a field-based command post, providing Incident Commanders with access to Department computer systems and radio communication center.

Description, capabilities, quantity and cost: Chevy C5500 Chassis (North-Star custom built) vehicle - The MCV is utilized for SWAT/CNT and other critical incidents, significant, preplanned events, searching for missing persons, natural disasters, and community events.

Quantity: 1, Cost: \$205,281

Purpose: Used for critical incidents based on the circumstances of a specific event, large event, or natural disaster to effectively and efficiently serve the community.

Authorized Use: Only personnel trained in the use and deployment of the MCV shall drive the vehicle under the direction of the SWAT commander or their designee.

Expected Lifespan: The MCV has an estimated lifespan of 15-years; however, upgrades are required in 5-year intervals to maintain communications and IT systems.

Fiscal Impact: One-time purchase with general maintenance fees.

Training: Drivers/Operators shall receive safe handling and maneuvering training on a closed training course. Personnel may only drive the vehicle after displaying competence during training.

Legal and Procedural Rules: It is the policy of the Rialto Police Department to utilize mobile command vehicles only for official law enforcement purposes, and pursuant to State and Federal law.

CATEGORY 10- Specialized firearms

RIFLES: Weapons defined by the California Penal Code as Assault Rifles, and that provide increased accuracy at distance.

Description, quantity, capabilities, and purchase cost: A lightweight, shoulder-fired, magazine-fed rifle with a long spiral grooved barrel intended to make a bullet spin and thereby have greater accuracy over a long distance with greater ballistic capabilities than a pistol. Modular accessories aiding in the operation and use may vary on each individual rifle.

| | |
|--------------------------------|--------------------------------|
| DPMS, RFA2-AP4A - 5.56mm | Quantity 18, Cost: \$825.00 |
| Colt, LE 6940 - 5.56mm | Quantity: 96, Cost: \$1,050.00 |
| Colt, LE 6420 - 5.56mm | Quantity: 17, Cost: \$1,000.00 |
| Colt LE 6946 CQB - 5.56mm | Quantity: 15, Cost: \$1,300.00 |
| Heckler & Koch, MP5 - 9mm | Quantity: 17, Cost: \$1,850.00 |
| Heckler & Koch, UMP40 - 40 S&W | Quantity: 1, Cost: \$1,100.00 |
| Heckler & Koch, UMP45 - 45ACP | Quantity: 1, Cost: \$1,100.00 |

Purpose: To be used as precision weapons to address a threat with increased accuracy at greater distances versus a handgun.

Authorized Use: Only members that have successfully completed POST mandated rifle training are authorized to use a rifle.

Lifespan: 25 years.

Fiscal Impact: Annual maintenance and cleaning is approximately \$30 for each rifle.

Training: Prior to using a rifle, officers must be certified by POST instructors in the operation of the rifle. Additionally, all members that operate any rifle are required to pass a range qualification three times a year.

Legal and Procedural Rules: It is the policy of the Rialto Police Department to utilize rifles only for official law enforcement purposes, and pursuant to State and Federal law regarding the use of force.

CATEGORY 12- Flash-bang devices and munitions containing tear gas or oleoresin capsicum

STINGER RUBBER BALL GRENADE (Sting-ball): A device used as a less than lethal compliance tool.

Description, capabilities, quantity and cost: DEFENSE TECHNOLOGY, STINGER RUBBER BALL GRENADE - The Stinger Grenade is a maximum effect device that delivers three stimuli for psychological and physiological effects: rubber pellets, light and sound. The Stinger Grenade is most widely used as a crowd management tool. The Rubber Ball Blast Grenade is used to deliver 60 Caliber Rubber Balls with the stimuli of light and sound. The grenade is most widely used as a crowd management training tool by Law Enforcement and Corrections. The Rubber Ball Blast has an initial 1.5 second delay that initiates fuse assembly separation, followed by another .5 second delay before the function of the device.

Quantity: 25, Cost: \$43

Purpose: Lawful application of force delivered with the intent to subdue or render non-threatening. The less lethal munitions may be used as an option to de-escalate a potentially dangerous/deadly situation, with a reduced potential for death or serious injury to all persons involved. It is accepted that the probability exists for bodily harm to occur. However, it must also be accepted that the application of such force may be the only alternative to using lethal force to stop the subject's actions.

Authorized Use: Situations where the deployment of less than lethal impact or munitions are authorized include but are not limited to:

- Self-destructive, dangerous, and/or combative individuals
- Circumstances where a tactical advantage can be obtained

Expected Lifespan: Sting-balls have a life span of 5 years.

Fiscal Impact: Annual maintenance for all sting-balls is \$50 total.

Training: Prior to deploying the Sting-ball, officers must attend less lethal munitions training that is conducted by POST certified instructors. SWAT team members consistently train on the use of sting-balls.

Legal and Procedural Rules: It is the policy of the Rialto Police department to utilize diversion devices only for official law enforcement purposes, and pursuant to State and Federal law regarding the use of force.

LIGHT/SOUND DIVERSIONARY DEVICES (LSDD): A distraction device is ideal for distracting dangerous suspects during assaults, hostage rescue, room entry or other high-risk arrest situations.

Description, quantity, capabilities, and purchase cost: Defense Technology, 8933 Low Roll Distraction Device - A non-bursting, non-fragmenting, limited rolling device that produces a thunderous bang with an intense bright light. Ideal for distracting dangerous suspects during assaults, hostage rescue, room entry or other high-risk arrest situations. Quantity: 3, Cost: \$50

Purpose: To produce atmospheric over-pressure and brilliant white light and, as a result, can cause short-term (6-8 seconds) physiological/psychological sensory deprivation to give officers a tactical advantage.

Authorized Use: Diversionary devices shall only be used:

- By officers who have been trained in their proper use.
- In hostage and barricaded subject situations.
- In high-risk warrant (search/arrest) services where there may be extreme hazards to officers or there is no response from suspects from announcements.
- During other high-risk situations where their use would enhance officer safety.
- During training exercises.

Lifespan: Until deployed.

Fiscal Impact: No annual maintenance.

Training: Prior to use, officers must attend diversionary device training that is conducted by Post certified instructors. SWAT team members consistently train on the use of distraction devices.

Legal and Procedural Rules: It is the policy of the Rialto Police department to utilize diversion devices only for official law enforcement purposes, and pursuant to State and Federal law regarding the use of force.

CHEMICAL AGENT AND SMOKE CANISTERS: Canisters that contain chemical agents that are released when deployed.

Description, quantity, capabilities, and purchase cost:

DEFENSE TECHNOLOGY, HAN-BALL CS GRENADE - The Han-Ball Grenade is a fast burning, high volume continuous discharge grenade. Also available in CN and CS versions. The outdoor use grenade expels its payload in approximately 15-20 seconds. The rubber ball round has an overall size of 4.8 in. tall, including the fuze head, and 3.1 in. diameter. This launchable grenade holds approximately 1.6 oz. of active agent which is expelled through three ports around the equator of the ball.

Quantity: 48, Cost: \$36

DEFENSE TECHNOLOGY, STINGER CS RUBBER BALL GRENADE- The Stinger CS Rubber Ball Grenade is a maximum effect device that delivers four stimuli for psychological and physiological effects: rubber pellets, light, sound, and CS. The Stinger® Grenade is most widely used as a crowd management tool by Law Enforcement and Corrections. The Stinger® Grenade has an initial 1.5 second delay that initiates fuze assembly separation, followed by another .5 second delay before the blast which is sufficient to project the rubber balls and chemical agent in a 50-foot radius.

Quantity: 33, Cost: \$45

DEFENSE TECHNOLOGY, SPEDE HEAT CS GRENADE- The Spede-Heat CS Grenade is a high volume, continuous burn it expels its payload in approximately 20-40 seconds. The payload is discharged through four gas ports on top of the canister, three on the side and one on the

bottom. This launchable grenade is 6.12 in. by 2.62 in. and holds approximately 2.9 oz. of active agent.

Quantity: 10, Cost: \$35

DEFENSE TECHNOLOGY, SPEDE HEAT OC GRENADE- The Spede-Heat OC Grenade is a high volume, continuous burn it expels its payload in approximately 20-40 seconds. The payload is discharged through four gas ports on top of the canister, three on the side and one on the bottom. This launchable grenade is 6.12 in. by 2.62 in. and holds approximately 1.09 oz. of active agent.

Quantity: 9, Cost: \$35

DEFENSE TECHNOLOGY, TRIPLE CHASER CS SEPARATING CANISTER- The Triple-Chaser CS consists of three separate canisters pressed together with separating charges between each. When deployed, the canisters separate and land approximately 20 feet apart allowing increased area coverage in a short period of time. This grenade can be hand thrown or launched from a fired delivery system. The grenade is 6.5 in. by 2.7 in. and holds an approximately 3.2 oz. of active agent payload. It has an approximate burn time of 20-30 seconds.

Quantity: 4, Cost: \$47

DEFENSE TECHNOLOGY, RIOT CONTROL CS GRENADE- The Riot Control CS Grenade is designed specifically for outdoor use in crowd control situations with a high volume continuous burn that expels its payload in approximately 20-40 seconds through four gas ports located on the top of the canister. This grenade can be used to conceal tactical movement or to route a crowd. The volume of smoke and agent is vast and obtrusive. This launchable grenade is 6.0 in. by 2.35 in. and holds approximately 2.7 oz. of active agent.

Quantity: 56, Cost: \$32

DEFENSE TECHNOLOGY, RIOT CONTROL OC GRENADE- The Riot Control OC Grenade is designed specifically for outdoor use in crowd control situations with a high volume continuous burn that expels its payload in approximately 20-40 seconds through four gas ports located on the top of the canister. This grenade can be used to conceal tactical movement or to route a crowd. The volume of smoke and agent is vast and obtrusive. This launchable grenade is 6.0 in. by 2.35 in. and holds approximately 0.88 oz. of active agent. ,

Quantity: 6, Cost: \$32

DEFENSE TECHNOLOGY, FLAMELESS TRI-CHAMBER CS GRENADE- The design of the Tri-Chamber Flameless CS Grenade allows the contents to burn within an internal can and disperse the agent safely with reduced risk of fire. The grenade is designed primarily for indoor tactical situations to detect and/or dislodge a barricaded subject. This grenade will deliver approximately .70 oz. of agent during its 20-25 seconds burn time. The Tri-Chamber Flameless Grenade can be used in crowd control as well as tactical deployment situations by Law Enforcement and Corrections, but was designed with the barricade situation in mind. Its applications in tactical situations are primarily to detect and/or dislodge barricaded subjects. The purpose of the Tri-Chamber Flameless Grenade is to minimize the risks to all parties through pain compliance, temporary discomfort, and/or incapacitation of potentially violent or dangerous

subjects. The Tri-Chamber Flameless Grenade provides the option of delivering a pyrotechnic chemical device indoors, maximizing the chemicals' effectiveness via heat and vaporization, while minimizing or negating the chance of fire to the structure.

Quantity: 1, Cost: \$45

DEFENSE TECHNOLOGY, FLAMELESS TRI-CHAMBER OC GRENADE- Designed for law enforcement and corrections, the OC Flameless Tri-Chamber Pyrotechnic Grenade combines the effectiveness of Oleoresin Capsicum (OC) as an incapacitating agent with the flexible delivery methods, range and area coverage of pyrotechnic munitions. The OC Flameless Tri-Chamber Grenade can be used in crowd control, or barricade situations, as a less lethal solution to incapacitate subjects through temporary respiratory discomfort, while reducing or negating the chance of fire to structures. The Tri-Chamber Flameless Grenade can be used in crowd control as well as tactical deployment situations by Law Enforcement and Corrections, but was designed with the barricade situation in mind. Its applications in tactical situations are primarily to detect and/or dislodge barricaded subjects. The purpose of the Tri-Chamber Flameless Grenade is to minimize the risks to all parties through pain compliance, temporary discomfort, and/or incapacitation of potentially violent or dangerous subjects. The Tri-Chamber Flameless Grenade provides the option of delivering a pyrotechnic chemical device indoors, maximizing the chemicals' effectiveness via heat and vaporization, while minimizing or negating the chance of fire to the structure.

Quantity: 2, Cost: \$45

DEFENSE TECHNOLOGY, OC VAPOR AEROSOL GRENADE- The Defense Technology OC Vapor Aerosol Grenade is for law enforcement and corrections use to deliver a high concentration of Oleoresin Capsicum (OC) in a powerful mist. The grenade is designed for indoor use in confined areas and, once deployed, inflames the mucous membranes and exposed skin resulting in an intense burning sensation. The incapacitating effect of the OC Vapor on the subject is dramatic, yet requires minimal decontamination. Removing the subject from the affected area to fresh air will resolve respiratory effects within minutes. The OC Vapor Aerosol Grenade is ideal for cell extractions or barricade situations where the use of pyrotechnic, powder or liquid devices is not practical or desired.

Quantity: 6, Cost: \$35

DEFENSE TECHNOLOGY, POCKET TACTICAL CS- The Pocket Tactical CS Grenade is small and lightweight. The 0.9 oz. of active agent will burn approximately 20-40 seconds. At 4.75 in. by 1.4 inches in size, it easily fits in most tactical pouches. This is a launchable grenade; however, it is normally used as a signaling or covering device. Though this device is slightly over four inches in length, it produces a smoke cloud so fast it appears to be an enveloping screen produced by a full-size tactical grenade.

Quantity: 7, Cost: \$22

DEFENSE TECHNOLOGY, POCKET TACTICAL OC- The Pocket Tactical OC Grenade is a quick-burning, reduced volume, continuous discharge grenade. Pelletized chemical agent is discharged through one (1) gas port located on the bottom of the canister. The Pocket Tactical Grenade is a small, lightweight, easily carried device that provides a medium volume of chemical agent or smoke for certain situations. It was designed with the tactical team in mind for distraction, concealment, rescue, or signaling. The pocket grenade is not specifically intended

as a crowd management device; however, it can be used in chemical configurations in conjunction with larger smoke canisters to “piggy-back” chemical agent into a predominately smoke environment. This device should be deployed utilizing wind advantage.

Quantity: 1, Cost: \$22

Authorized Use: Situations where the deployment of less-lethal impact or chemical munitions are authorized include but are not limited to:

- Self-destructive, dangerous, and/or combative individuals
- Circumstances where a tactical advantage can be obtained
- Tactical situations involving the deployment of the Department’s SWAT Team.

Expected Lifespan: 5 years from manufacturing date.

Fiscal Impact: No annual maintenance costs.

Training: Prior to deploying Chemical Agent and Smoke Canisters, members must complete a POST certified course in the operation of Chemical Agent and Smoke Canisters. SWAT team members consistently train on the use of chemical agent and smoke canisters.

Legal and Procedural Rules: It is the policy of the Rialto Police department to utilize diversion devices only for official law enforcement purposes, and pursuant to State and Federal law regarding the use of force.

EXPLOSIVE BREACHING TOOLS: Tools that are used to conduct an explosive breach. All explosive breaching equipment is shared with the Inland Valley SWAT agencies.

Description, quantity, capabilities, and purchase cost:

DETONATING CORD- The detonating cord is a thin, flexible plastic tube usually filled with pentaerythritol tetranitrate (PETN, pentrite). With the PETN exploding at a rate of approximately 6400 m/s, any common length of detonation cord appears to explode instantaneously. It is a high-speed fuse that explodes, rather than burns, and is suitable for detonating high explosives.

Quantity: 700 meters, Cost: \$1 per foot

BLASTING CAP- A blasting cap is a small sensitive primary explosive device generally used to detonate a larger, more powerful and less sensitive secondary explosive such as TNT, dynamite, or plastic explosive. Blasting caps come in a variety of types, including non-electric caps, electric caps, and fuse caps.

Quantity: 73, Cost: \$12

Purpose: To safely and quickly gain entry into a structure.

Authorized Use: Explosive breaching may only occur after authorization by the Incident Commander or SWAT Commander in the field, and during training exercises.

Lifespan: Blasting Caps- 10 years, Detonating cord- 10 years.

Fiscal Impact: One-time purchase.

Training: All officers who use explosive breaching tools shall attend a POST approved Tactical Explosive Breacher Course and must additionally receive quarterly training for explosive breaching operations.

Legal and Procedural Rules: It is the policy of the Rialto Police Department and Inland Valley SWAT to utilize explosive breaching tools only for official law enforcement purposes, and pursuant to State and Federal law.

CATEGORY 14- Kinetic energy weapons, munitions and specialty impact munitions (SIM) weapons

40 MM LAUNCHERS AND MUNITIONS: 40MM Launchers are utilized to deploy less than lethal rounds.

Description, quantity, capabilities, and purchase cost: A less lethal 40mm lightweight plastic and foam projectile fired from a single 40mm launcher with a rifled barrel. The 40mm Exact Impact Sponge Round provides accurate and effective performance when fired from the approved distance.

Penn Arms, 40MM LMT 6-shot launcher, Quantity: 2, Cost: \$2,300.

DEFENSE TECHNOLOGY, 40MM LMT 4-shot launcher, Quantity: 11, Cost: \$1,975.

DEFENSE TECHNOLOGY, 40MM LMT Single-shot launcher, Quantity: 32, Cost: \$1,000.

DEFENSE TECHNOLOGY, 40MM EXACT IMPACT SPONGE, #6325 - A less lethal 40mm lightweight plastic and foam projectile fired from a single 40mm launcher with a rifled barrel. The 40mm Exact Impact Sponge Round provides accurate and effective performance when fired from the approved distance.

Quantity: 108, Cost: \$18

DEFENSE TECHNOLOGY, 40MM DIRECT IMPACT OC ORANGE, #6320 - A less lethal 40mm lightweight plastic and crushable foam projectile fired from a single or multi-round purpose-built 40mm grenade launcher with a rifled barrel at 295 FPS. The 39-gram crushable foam projectile delivers 120 ft/lbs of energy upon impact in addition to the dispersion of 5 grams of OC irritant. The 40mm Direct Impact OC Round provides accurate and effective performance when fired from the approved distance of not less than five (5) feet and as far as 120 feet from the target.

Quantity: 4, Cost: \$30

DEFENSE TECHNOLOGY, 40MM DIRECT IMPACT MARKING GRN, #6326 - The 40 mm Direct Impact® LE Extended Range Round is a point-of-aim, point-of-impact direct-fire round and is intended to be used in applications that exceed the performance capability of the standard Direct Impact Round. When loaded with a green marking agent, the Direct Impact LE can be used to indicate the aggressor in a crowd or riot situation to the team on the ground.

Quantity: 20, Cost: \$30

DEFENSE TECHNOLOGY, 40MM WARNING PROJECTILE 50M, #6028 - The 40mm Aerial Warning/Signaling Munition, 50 meters, is intended for use in situations where stand-off distance is desired, giving the operator the ability to engage crowds, vehicles, or vessels. Launched from a 40mm platform, the munitions deflagrate at a set distance of 50 meters to deliver 170 dB of sound and 5 million candelas of light, noticeable in day or night conditions. A tactile feature on the nose of the cone indicates the designated distance.

Quantity: 8, Cost: \$38

DEFENSE TECHNOLOGY, 40MM WARNING PROJECTILE 100M, #6029 - The 40mm Aerial Warning/Signaling Munition, 100 meters, is intended for use in situations where stand-off distance is desired, giving the operator the ability to engage crowds, vehicles, or vessels. Launched from a 40mm platform, the munitions deflagrate at a set distance of 100 meters to deliver 170 dB of sound and 5 million candelas of light, noticeable in day or night conditions. A tactile feature on the nose of the cone indicates the designated distance.

Quantity: 5, Cost: \$38

DEFENSE TECHNOLOGY, 40MM DIRECT IMPACT EXTENDED, #6323 - The 40 mm Direct Impact LE Extended Range Round is a point-of-aim, point-of-impact direct-fire round and is intended to be used in applications that exceed the performance capability of the standard Direct Impact Round.

Quantity: 22, Cost: \$22

DEFENSE TECHNOLOGY, 40MM DIRECT IMPACT CS BLUE, #6322 - The 40 mm Direct Impact CS Blue is a point-of-aim, point-of-impact direct-fire round and is intended to be used in applications that require compliance from the deployment of oleoresin capsicum irritant. When loaded with CS powder, the Direct Impact LE combines projectile impact with the effects of an irritant powder, maximizing the potential for incapacitation.

Quantity: 3, Cost: \$30

Purpose: To limit the escalation of conflict and to minimize the use of force.

Authorized Use: Situations for use of the less lethal weapon systems may include, but are not limited to:

- Self-destructive, dangerous and/or combative individuals.
- Circumstances where a tactical advantage can be obtained.
- Potentially vicious animals.
- Training exercises or approved demonstrations.

Lifespan: Defense Technology Launchers 20-25 years. All impact and gas munitions 5 years.

Fiscal Impact: None

Training: Sworn members utilizing 40mm less lethal chemical agents or impact rounds are trained in their use by POST certified less lethal instructors.

Legal and Procedural Rules: It is the policy of the Rialto Police Department to utilize the 40mm only for official law enforcement purposes, and pursuant to State and Federal law, including those regarding the use of force.

BEANBAG SHOTGUNS: Standard pump action shotgun used to deploy the less lethal 12-gauge Super-Sock Beanbag Round.

Description, quantity, capabilities, and purchase cost: REMINGTON LESS LETHAL SHOTGUN- The Remington 870 Less Lethal Shotgun is distinguishable by an orange buttstock and foregrip. It is used to deploy the less lethal 12-gauge Super-Sock Beanbag Round up to a distance of 75

feet. The range of the weapon system helps to maintain space between officers and a suspect, reducing the immediacy of the threat which is a principle of de-escalation.

Quantity: 30, **Cost:** \$925

12-GAUGE SUPER-SOCK BEANBAG ROUND- A less lethal 2.4-inch 12-gauge shotgun round firing a ballistic fiber bag filled with 40 grams of lead shot at a velocity of 270-290 feet per second (FPS). This round provides accurate and effective performance when fired from the approved distance of not fewer than five (5) feet. Effectiveness depends on many variables, such as distance, clothing, stature, and the point where the projectile impacts.

Quantity: 605, **Cost:** \$5

Purpose: To limit the escalation of conflict and to minimize the use of force.

Authorized Use: Situations for use of the less lethal weapon systems may include, but are not limited to:

- Self-destructive, dangerous and/or combative individuals.
- Circumstances where a tactical advantage can be obtained.
- Potentially vicious animals.
- Training exercises.

Lifespan: No expiration date.

Fiscal Impact: None.

Training: All officers are trained in the 12 gauge less lethal shotgun as a less lethal option by in-service training.

Legal and Procedural Rules: It is the policy of the Rialto Police Department to utilize the less lethal shotgun only for official law enforcement purposes, and pursuant to State and Federal law, including those regarding the use of force.

SPECIALTY IMPACT MUNITION (SIM) WEAPONS:

Ultimate Training Munitions (UTM) M16/M4 Rifle Bolt Carrier Assembly (Blue Bolt): This is a non-operational bolt carrier group. This bolt carrier group is used for training purposes only.

Description, quantity, capabilities, and purchase cost: All UTM 5.56mm rifle conversions employ a Fail-Safe measure where the firing pin is offset from center. Not only is the firing pin strike outside the strike area of a "Live" cartridge center fire primer, it does not strike the primer at all, hence the weapon fails to fire the host weapons "Live" caliber ammunition. This applies to all UTM rifle conversions.

Quantity: 10, **Cost:** \$373

Purpose: These are non-operational bolt carrier groups and non-operational weapons systems. These blue bolts allow the user to fire UTM munitions for realistic close quarter firearms training while allowing the user to visually assess shot placement and accuracy in force on force training scenarios.

Authorized Use: Rifle caliber SIMs (5.56mm) are used exclusively by the SWAT Unit, In-Service Training Unit, and the Police Academy for training purposes only. Pistol caliber SIMs (9mm) are used by the SWAT Unit, In-Service Training Unit, and the Police Academy for training purposes only.

Lifespan: No lifespan indicated by manufacturer. Lifespan varies by operational usage and wear.

Fiscal Impact: None

Training Requirements: In-Service Training staff, In-Service Training attendees, Police Academy Staff, and Police Recruits are given extensive firearms handling courses and weapons safety instruction to include the use of SIM's for training purposes. Additionally, SWAT Officers use SIMs during scenario based training on a regular basis.

Legal and Procedural Rules: It is the policy of the Rialto Police Department to utilize SIMs weapons and munitions for training purposes only.

GLOCK 17T FX (SIMs Gun): This is a non-operational training pistol. This training pistol is used for training purposes only.

Description, quantity, capabilities, and purchase cost: The GLOCK Training pistols were developed for the purpose of enabling reality-based tactical operations' training with color marking or plastic bullet ammunition. These pistols use the popular FX (UTM 9mm UTX Marker Rounds), which are used by military and law enforcement units around the world.

Quantity: 10, **Cost:** \$454

Purpose: These are non-operational training pistols and non-operational weapons systems. These training pistols allow the user to fire UTM munitions for realistic close quarter firearms training while allowing the user to visually assess shot placement and accuracy in force on force training scenarios.

Authorized Use: Pistol caliber UTX Marker Rounds (9mm) are used exclusively by the SWAT Unit, In-Service Training Unit, and the Police Academy for training purposes only.

Lifespan: No lifespan indicated by manufacturer. Lifespan varies by operational usage and wear.

Fiscal Impact: None

Training Requirements: In-Service Training staff, In-Service Training attendees, Police Academy Staff, and Police Recruits are given extensive firearms handling courses and weapons safety instruction to include the use of SIM's for training purposes. Additionally, SWAT Officers use SIMs during scenario based training on a regular basis.

Legal and Procedural Rules: It is the policy of the Rialto Police Department to utilize SIMs weapons and munitions for training purposes only.

SPECIALTY IMPACT MUNITIONS (SIMs): A non-lethal training ammunition used by law enforcement agencies and militaries worldwide to deliver more realistic close range firearms training. They consist of low energy, non-lethal cartridges, typically manufactured with a water soluble color marking compound. These rounds allow for shooters to obtain a visual assessment of round placement in live person training environments.

Description, quantity, capabilities, and purchase cost: When utilized with a training munition bolt carrier group in a 5.56mm rifle platform, SIMs have an effective range of approximately 27 yards. When utilized in a pistol caliber barrel training platform (9mm), SIMs have an effective range of 25 feet.

UTM 5.56mm Man Marker Rounds (MMR) -Model 01-0972 (Blue)- This is a non-operational munition. This munition is used for training purposes only. UTM 5.56mm Man Marker Rounds serve the following purpose: Accurate and reliable marking projectile for Force-on-Force or Force- on-Target training. Adds realism and stress to training by providing a threat of consequence with physical and visual stimulus. Use of Force/ROE, Tactics, Skill Building, Scenarios, Movement Drills and other Interactive Training. Use as a safe prelude or alternative to 'Live-Fire' target or CQB training. Accuracy and reliability allows for multiple firearms, CQB, and marksmanship applications (360° firing, movement drills, and weapon transitions).

Quantity: 900, **Cost:** \$810.00

UTM 5.56mm Man Marker Rounds (MMR) -Model 01-0973 (Green)- This is a non-operational munition. This munition is used for training purposes only. UTM 5.56mm Man Marker Rounds serve the following purpose: Accurate and reliable marking projectile for Force-on-Force or Force- on-Target training. Adds realism and stress to training by providing a threat of consequence with physical and visual stimulus. Use of Force/ROE, Tactics, Skill Building, Scenarios, Movement Drills and other Interactive Training. Use as a safe prelude or alternative to 'Live-Fire' target or CQB training. Accuracy and reliability allows for multiple firearms, CQB, and marksmanship applications (360° firing, movement drills, and weapon transitions).

Quantity: 900, **Cost:** \$810.00

UTM 9mm UTX Marker Rounds (UTX) -Model 01-3103 (Green)- This is a non-operational munition. This munition is used for training purposes only. UTM 5.56mm Man Marker Rounds serve the following purpose: Accurate and reliable marking projectile for Force-on-Force or Force- on-Target training. Adds realism and stress to training by providing a threat of consequence with physical and visual stimulus. Use of Force/ROE, Tactics, Skill Building, Scenarios, Movement Drills and other Interactive Training. Use as a safe prelude or alternative to 'Live-Fire' target or CQB training. Accuracy and reliability allows for multiple firearms, CQB, and marksmanship applications (360° firing, movement drills, and weapon transitions).

Quantity: 1000, **Cost:** \$680.00

UTM 9mm UTX Marker Rounds (UTX) -Model 01-3102 (Blue)- This is a non-operational munition. This munition is used for training purposes only. UTM 5.56mm Man Marker Rounds serve the following purpose: Accurate and reliable marking projectile for Force-on-Force or Force- on-Target training. Adds realism and stress to training by providing a threat of consequence with physical and visual stimulus. Use of Force/ROE, Tactics, Skill Building, Scenarios, Movement Drills and other Interactive Training. Use as a safe prelude or alternative

to 'Live-Fire' target or CQB training. Accuracy and reliability allows for multiple firearms, CQB, and marksmanship applications (360° firing, movement drills, and weapon transitions).

Quantity: 1000, **Cost:** \$680.00

Purpose: These are non-operational rounds and non-operational weapons systems. These munitions provide for realistic close quarters firearms training while allowing the shooter to visually assess shot placement and accuracy in force on force training scenarios.

Authorized Use: Blue bolts are used exclusively by the SWAT Unit, In-Service Training Unit, and the Police Academy for training purposes only.

Lifespan: No lifespan indicated by manufacturer. Lifespan varies by operational usage and wear.

Fiscal Impact: None

Training Requirements: In-Service Training staff, In-Service Training attendees, Police Academy Staff, and Police Recruits are given extensive firearms handling courses and weapons safety instruction to include the use of SIM's for training purposes. Additionally, SWAT Officers use SIM's during scenario based training on a regular basis.

Legal and Procedural Rules: It is the policy of the Rialto Police Department to utilize the 40mm only for official law enforcement purposes, and pursuant to State and Federal law, including those regarding the use of force.

PROJECTED MILITARY EQUIPMENT 2024

Unmanned Aircraft System (UAS/Drone): An unmanned remote-controlled aircraft utilized to enhance the safety of the community and officers.

Description, quantity, capabilities, and purchase cost: To Be Determined

Purpose: To be deployed when its view would assist officers or incident commanders with the following situations, which include but are not limited to:

- Major collision investigations.
- Search for missing persons.
- Natural disaster management.
- Crime scene photography.
- SWAT, tactical or other public safety and life preservation missions.
- In response to specific requests from local, state or federal fire authorities for fire response and/or prevention.

Authorized Use: Only assigned operators who have completed the required training shall be permitted to operate the UAS/Drone during approved missions.

Expected Life Span: 10 years.

Fiscal Impact: One-time purchase.

Training: Each operator must attend a 40-hour department training and ongoing quarterly training.

Legal and Procedural Rules: The Rialto Police Department will utilize drones only for official law enforcement purposes and in a manner that respects the privacy of our community, pursuant to State and Federal law.

Armored Rescue Vehicles (ARV's): Commercially produced wheeled armored personnel vehicle utilized for the safe transport of law enforcement personnel.

Description, quantity, capabilities, and purchase cost: Lenco BEARCAT, G3 - The BearCat G3 provides Lenco's proven armor system in a ruggedized off-road platform. The G3 utilizes the same body design, interior features and tactical options as the G2, but it comes standard with a heavier duty upgraded suspension and off-road tires, rims & run flats to provide enhanced off-road performance. The increased ground clearance and robust suspension allows for emergency response in rural regions and natural disaster scenarios where standard armored SWAT vehicles would experience challenges.

Quantity: 1, **Cost:** \$360,000

Purpose: To be used in response to critical incidents to enhance officer and community safety, improve scene containment and stabilization, and assist in resolving critical incidents.

Authorized Use: The use of armored vehicles shall only be authorized by a supervisor, based on the specific circumstances of a given critical incident.

Expected Lifespan: 25 years.

Fiscal Impact: One-time purchase with general maintenance fees.

Training: The armored vehicle uses and training takes place during annual training provided by the department. All sworn personnel are trained in the tactics and capabilities of the armored vehicles.

Legal and Procedural Rules: It is the policy of the Rialto Police Department to utilize armored vehicles only for official law enforcement purposes, and pursuant to State and Federal law.

Specialized Firearms: Weapons defined by the California Penal Code as Assault Rifles, and that provide increased accuracy at distance.

Description, quantity, capabilities, and purchase cost: Daniel Defense DD5 V3 Rifle, .308 Caliber - The Daniel Defense DD5 V3, AR10 Style rifle features a 16.1” barrel, Daniel Defense trigger, stock, and detachable magazine. The Daniel Defense DD5 V3 is precision-built rifle focused on accuracy. The rifle is an AR10 platform which allows for a higher capacity of ammunition in a detachable magazine.

Quantity: 2, **Cost:** \$2,650

Purpose: To be used as precision weapons to address a threat with increased accuracy at greater distances versus a handgun.

Authorized Use: Only members that have successfully completed department precision rifle training are authorized to use a rifle.

Lifespan: 25 years.

Fiscal Impact: Annual maintenance and cleaning is approximately \$30 for each rifle.

Training: Prior to using a rifle, officers must be certified by POST instructors in the operation of the precision rifle. Additionally, all members that operate any rifle are required to pass a range qualification three times a year.

Legal and Procedural Rules: It is the policy of the Rialto Police Department to utilize rifles only for official law enforcement purposes, and pursuant to State and Federal law regarding the use of force.

Flash-bang devices and munitions containing tear gas or oleoresin

capsicum: A less than lethal device that allows a law enforcement officer to maintain distance from an assailant or crowd.

Description, capabilities, quantity and cost: Pepperball PPC Launcher - Lightweight and portable, the PPC is designed to give patrol officers an easy to operate non-lethal option. The PPC uses PepperBall .68 caliber round or VXR™ projectiles and is powered by either HPA or an 88 gram single use CO2 cartridge. The projectiles are fired at a rate of 8.8-18.4 ft lb/ 12-28 joules of Kinetic Energy. Target minimum range is 0 feet (individual) and a maximum range of 150 feet (area of saturation).

Quantity: 2, **Cost:** \$844.95 each

PepperBall Inert Practice Projectiles- Projectiles contain a harmless, scented powder, best suited for practice or direct impact when chemical exposure is not desired, .68 caliber and weigh 3 grams.

Quantity: 750, **Cost:** 0.35 each

Live X™ Projectiles- Projectiles contain 5.0% PAVA. It is effective for direct impact and area saturation. .68 caliber and weigh 3 grams.

Quantity: 375, **Cost:** \$2.78 each

Purpose: Lawful application of force delivered with the intent to subdue or render non-threatening. The less lethal munitions may be used as an option to de-escalate a potentially dangerous/deadly situation, with a reduced potential for death or serious injury to all persons involved. It is accepted that the probability exists for bodily harm to occur. However, it must also be accepted that the application of such force may be the only alternative to using lethal force to stop the subject's actions.

Authorized Use: Situations where the deployment of less-lethal impact or munitions are authorized include but are not limited to: Self-destructive, dangerous, and/or combative individuals Circumstances where a tactical advantage can be obtained

Expected Lifespan: 20 years, All Pepperball projectiles have a life span of 3 years.

Fiscal Impact: One time purchase for the launchers with annual maintenance. Projectiles are considered consumable equipment.

Training: Prior to deploying the Pepper Ball Launcher and Munitions, members must attend a training course in the operation of the Pepper Ball Launcher. Additionally, all members that operate any Less Lethal Devices are required to pass a qualification course of instruction according to department policy.

Legal and Procedural Rules: It is the policy of the Rialto Police Department to utilize armored vehicles only for official law enforcement purposes, and pursuant to State and Federal law.

Consumable Military Equipment:

The projected consumable military equipment acquisitions are expected to be in line with current replenishment schedules and quantities for consumables. A variety of commercial factors (i.e. supply and demand, inflation, supply chain issues etc.) may influence the fiscal impact of future military equipment acquisitions and ongoing military equipment purchases throughout the year. The replenishment schedules for military equipment consumables can vary and are dictated by inventory levels that fluctuate as a result of training, operational usage, or manufacturer recommended replacement guidelines. For the purposes of this section, consumable military equipment includes, but is not limited to:

- Ammunition
- Explosive Breaching Equipment
- Specialty Munitions
- Diversionary Devices
- Pepperball Munitions
- Specialty Impact Munitions

- END OF REPORT -
